

5.7" Touchscreen Liquid Crystal Display

Introduction

The E-Plex 345LCDC series is a family of liquid crystal displays that have been designed to give the customer a choice of desired features without requiring a traditional operating system on a PC.

An integrated touch screen interface allows for monitoring and controlling of different key subsystems, all from one location.

Key Features

- 320 x 240 color ¼ VGA display.
- 5.7" Diagonal transmissive display.
- Integrated resistive touch screen.
- Utilizes E-Layout software for custom screen designs.
- Supports up to 8 pages of user-defined display information.
- LEN value 3.
